

IED Large Project Team Assignment #1

Friday, June 12, 2020 11:30 AM

We have a decently diverse team of engineers. We have people who are proficient in CAD, sketching, circuits, and programming. We are all aiming for an A in the class. Communication and presentation are some of the greatest challenges. The majority of us do not have scheduling conflicts but for those few conflicts there are resources and times where we can meet. Wednesdays and the weekend seem like the best times to meet.

Majors:

Saaif: CS and CSE

Ganqi: EE

Jose: Civil

Hanyin: Mech E

Zhan: CSE
